REGULATORY INFORMATION

This letter (which may be referred to below as "Statement") is submitted in response to your request concerning the Goods and compliance with certain legal standards or requirements as explained below.

Berry Global, Inc. and its affiliates may be referred to as "Seller" and the buyer of Goods may be referred to as "Buyer" or "customer." Resins, colorants, additives, and other materials used in the production of Goods may be referred to as "Materials" and suppliers of such Materials may be referred to as "Suppliers." All statements are made to the best of Seller's knowledge, as of the date above, and are subject to the disclaimer at the end of this Statement.

Customer Questionnaires

NOTE: At the direction of Berry legal, Berry does not complete or sign Customer Questionnaires for regulatory information. Regulatory information will be provided only using Berry formatted language and documents.

Allergens

Based on representations of the suppliers of the resins and additives from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain food allergens including: fish, shellfish, milk,

Berry Global, Inc.

101 Oakley Street Evansville, IN 47710 Tele: 812-424-2904 Fax: 812-424-0128

eggs, soy, wheat (gluten), peanuts, tree nuts, and sesame.

Article Exemption Letter

In response to your request for a Safety Data Sheet (SDS) for Berry Global Inc Goods listed above we offer the following information:

The material in question is an "article" as defined by the United States Department of Labor, Occupational Safety and Health Administration (OSHA) and per Article 3(3) of the REACH Regulation and is a "manufactured article" as defined by the Canadian Hazardous Products Act (R.S.C., 1985, c. H-3) and as such is exempt from the requirement for creation of a SDS.

US Federal OSHA defines an "article" as follows at 29 CFR 1910.1200 (c):

Article means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

The Canadian Federal Hazardous Products Act defines a "manufactured article" as follows at Part II Controlled Products, Interpretation, Definitions, paragraph 11(1):

"manufactured article" means any article that is formed to a specific shape or design during manufacture, the intended use of which when in that form is dependent in whole or in part on its shape or design, and that, under normal conditions of use, will not release or otherwise cause a person to be exposed to a controlled product;

EU REACH similarly defines an article as follows per Article 3(3) of the REACH Regulation

Article means an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition;

The Goods are not a Substance or Mixture that:

- Meets the criteria for classification as hazardous in accordance with Regulation (EC) 1272/2008
- Meets the criteria for classification as dangerous in accordance with Directive 1999/45/EC
- Is Persistent, Bioaccumulative, or Toxic (PBT), Very Persistent or Very Bioaccumulative (vPvB),
- Is subject to authorization
- Contains >0.1% of a substance that poses a human health or environmental hazard
- Contains >0.1% of a substance that is PBT or vPvB or subject to authorization
- Contains a substance for which there are Community workplace exposure limits

The Goods listed above do not have an intended release in the application or use of the product. Any product which meets the definition of an "article" (OSHA and EU) or a "manufactured article" (CFHPA) is exempt from the requirement to provide a SDS.

If you should need additional information, please contact your Sales or Customer Service Representative.

BPA - Bisphenol A and bisphenol derivatives

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Bisphenol-A (BPA) or bisphenol derivatives. Berry does not analyze for BPA or bisphenol derivatives as they are not expected to be present.

California Proposition 65

To the best knowledge of the suppliers of the materials used in the manufacturing process, each article comprising any shipment or other delivery of Goods made to or on order of Buyer, on the date of such shipment or delivery, does

Berry Global, Inc.

101 Oakley Street Evansville, IN 47710 Tele: 812-424-2904 Fax: 812-424-0128

not contain substances (Listed Substances), that are: (i) intentionally added during the manufacturing process or (ii) known or expected to be present at an exposure level requiring a warning under the current provisions of California Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Canada Food and Drug - Division 23

The Materials selected to formulate the Goods are compliant with Canada Food and Drug, Part B – Division 23 requirements and are safe to use in articles intended for food contact.

CONEG "Toxics in Packaging" Model Legislation

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, in compliance with the relevant heavy metals requirements, and all current applicable amendments, for the Toxics in Packaging Clearinghouse, TPCH, (a.k.a. CONEG), California Toxics in Packaging Prevention (TIPP) Act, and European Union Council Directive 94/62/EC, Article 11.

Specifically, the sum of incidental concentration levels of lead, cadmium, mercury and hexavalent chromium present in the Goods shall not exceed 100 parts per million by weight. In cases where the regulated heavy metals are present at levels below the amount stated above, the regulated heavy metals were not intentionally added during the manufacturing process. Phthalates and PFAS are not intentionally added.

Halal

Berry Global does not certify the goods as Halal compliant.

Kosher

Berry Global does not certify the goods as Kosher compliant.

PFAS - Per- or Polyfluoroalkyl Substances

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Per- or polyfluoroalkyl substances (PFAS). Berry does not analyze for the substances as they are not expected to be present.

Phthalates

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Phthalates including di-(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), benzyl butyl phthalate (BBP), di-isononyl phthalate (DINP) except for unintentional ubiquitous sources. Berry does not analyze for the substances as they are not expected to be present.

Undesirable Substance(s)

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added chlorine or chlorinated compounds. Berry does not analyze for the substances as they are not expected to be present.

US FDA Food Contact Compliance Status (21 CFR 175, 176, 177, 178)

The Materials selected to formulate the Goods are listed in one or more of the following sections of Title 21, Code of Federal Regulations: 177.1520; 178.3297; 178.2010.

The finished articles may be used in contact with all types of food as defined in Table 1, 21 C.F.R. § 176.170(c) at Conditions of Use C–H as defined in Table 2, 21 C.F.R. § 176.170(c).

The sections above list raw materials approved by the U.S. Food and Drug Administration (FDA) for use in food contact applications, such as packaging, and are subject to good manufacturing practices and any limitations contained in applicable United States regulations. This statement does not refer to the Good's physical utility. It is the responsibility of the Buyer to determine if the Goods are suitable for their intended use.

PFAS - Per- or Polyfluoroalkyl Substances

Berry Global, Inc.

101 Oakley Street Evansville, IN 47710 Tele: 812-424-2904 Fax: 812-424-0128

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Per- or polyfluoroalkyl substances (PFAS). Berry does not analyze for the substances as they are not expected to be present.

Phthalates

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Phthalates including di-(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), benzyl butyl phthalate (BBP), di-isononyl phthalate (DINP) except for unintentional ubiquitous sources. Berry does not analyze for the substances as they are not expected to be present.

Undesirable Substance(s)

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added chlorine or chlorinated compounds. Berry does not analyze for the substances as they are not expected to be present.

US FDA Food Contact Compliance Status (21 CFR 175, 176, 177, 178)

The Materials selected to formulate the Goods are listed in one or more of the following sections of Title 21, Code of Federal Regulations: 177.1520.

The finished articles may be used in contact with all types of food as defined in Table 1, 21 C.F.R. § 176.170(c) at Conditions of Use A–H as defined in Table 2, 21 C.F.R. § 176.170(c).

The sections above list raw materials approved by the U.S. Food and Drug Administration (FDA) for use in food contact applications, such as packaging, and are subject to good manufacturing practices and any limitations contained in applicable United States regulations. This statement does not refer to the Good's physical utility. It is the responsibility of the Buyer to determine if the Goods are suitable for their intended use.

Allergens

Based on representations of the suppliers of the resins and additives from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain food allergens including: fish, shellfish, milk, eggs, soy, wheat (gluten), peanuts, tree nuts, and sesame.

Article Exemption Letter

In response to your request for a Safety Data Sheet (SDS) for Berry Global Inc Goods listed above we offer the following information:

The material in question is an "article" as defined by the United States Department of Labor, Occupational Safety and Health Administration (OSHA) and per Article 3(3) of the REACH Regulation and is a "manufactured article" as defined by the Canadian Hazardous Products Act (R.S.C., 1985, c. H-3) and as such is exempt from the requirement for creation of a SDS.

US Federal OSHA defines an "article" as follows at 29 CFR 1910.1200 (c):

Article means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

Berry Global, Inc.

101 Oakley Street Evansville, IN 47710 Tele: 812-424-2904 Fax: 812-424-0128

The Canadian Federal Hazardous Products Act defines a “manufactured article” as follows at Part II Controlled Products, Interpretation, Definitions, paragraph 11(1):
“manufactured article” means any article that is formed to a specific shape or design during manufacture, the intended use of which when in that form is dependent in whole or in part on its shape or design, and that, under normal conditions of use, will not release or otherwise cause a person to be exposed to a controlled product;

EU REACH similarly defines an article as follows per Article 3(3) of the REACH Regulation

Article means an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition;

The Goods are not a Substance or Mixture that:

- Meets the criteria for classification as hazardous in accordance with Regulation (EC) 1272/2008
- Meets the criteria for classification as dangerous in accordance with Directive 1999/45/EC
- Is Persistent, Bioaccumulative, or Toxic (PBT), Very Persistent or Very Bioaccumulative (vPvB),
- Is subject to authorization
- Contains >0.1% of a substance that poses a human health or environmental hazard
- Contains >0.1% of a substance that is PBT or vPvB or subject to authorization
- Contains a substance for which there are Community workplace exposure limits

The Goods listed above do not have an intended release in the application or use of the product. Any product which meets the definition of an “article” (OSHA and EU) or a “manufactured article” (CFHPA) is exempt from the requirement to provide a SDS.

If you should need additional information, please contact your Sales or Customer Service Representative.

BPA - Bisphenol A and bisphenol derivatives

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Bisphenol-A (BPA) or bisphenol derivatives. Berry does not analyze for BPA or bisphenol derivatives as they are not expected to be present.

California Proposition 65

To the best knowledge of the suppliers of the materials used in the manufacturing process, each article comprising any shipment or other delivery of Goods made to or on order of Buyer, on the date of such shipment or delivery, does not contain substances (Listed Substances), that are: (i) intentionally added during the manufacturing process or (ii) known or expected to be present at an exposure level requiring a warning under the current provisions of California Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Canada Food and Drug - Division 23

The Materials selected to formulate the Goods are compliant with Canada Food and Drug, Part B – Division 23 requirements and are safe to use in articles intended for food contact.

CONEG "Toxics in Packaging" Model Legislation

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, in compliance with the relevant heavy metals requirements, and all current applicable amendments, for the Toxics in Packaging Clearinghouse, TPCH, (a.k.a. CONEG), California Toxics in Packaging Prevention (TIPP) Act, and European Union Council Directive 94/62/EC, Article 11.

Specifically, the sum of incidental concentration levels of lead, cadmium, mercury and hexavalent chromium present in the Goods shall not exceed 100 parts per million by weight. In cases where the regulated heavy metals are present at levels below the amount stated above, the regulated heavy metals were not intentionally added during the manufacturing process. Phthalates and PFAS are not intentionally added.

Berry Global does not certify the goods as Kosher compliant.

PFAS - Per- or Polyfluoroalkyl Substances

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Per- or polyfluoroalkyl substances (PFAS). Berry does not analyze for the substances as they are not expected to be present.

Phthalates

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to intentionally contain phthalates including di-(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), benzyl butyl phthalate (BBP), di-isononyl phthalate (DINP). There is a potential for trace levels of phthalates resulting from catalyst residues but are generally less than 15ppm.

Undesirable Substance(s)

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added chlorine or chlorinated compounds. Berry does not analyze for the substances as they are not expected to be present.

US FDA Food Contact Compliance Status (21 CFR 175, 176, 177, 178)

The Materials selected to formulate the Goods are listed in one or more of the following sections of Title 21, Code of Federal Regulations: 177.1520; 178.3297.

The finished articles may be used in contact with all types of food, except infant formula and human breast milk, as defined in Table 1, 21 C.F.R. § 176.170(c) at Conditions of Use A–H as defined in Table 2, 21 C.F.R. § 176.170(c).

The sections above list raw materials approved by the U.S. Food and Drug Administration (FDA) for use in food contact applications, such as packaging, and are subject to good manufacturing practices and any limitations contained in applicable United States regulations. This statement does not refer to the Good's physical utility. It is the responsibility of

Berry Global, Inc.

101 Oakley Street Evansville, IN 47710 Tele: 812-424-2904 Fax: 812-424-0128

the Buyer to determine if the Goods are suitable for their intended use.

Berry Item No.	Item Description "Goods"
FTIN-1744288	TA7G95IHW,W,11,0084 TA7G95IHW,W,11,0084
FTIN-1744292	TA5G90DMW,C,11,0120 TA5G90DMW,C,11,0120

Allergens

Based on representations of the suppliers of the resins and additives from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain food allergens including: fish, shellfish, milk, eggs, soy, wheat (gluten), peanuts, tree nuts, and sesame.

Article Exemption Letter

In response to your request for a Safety Data Sheet (SDS) for Berry Global Inc Goods listed above we offer the following information:

The material in question is an "article" as defined by the United States Department of Labor, Occupational Safety and Health Administration (OSHA) and per Article 3(3) of the REACH Regulation and is a "manufactured article" as defined by the Canadian Hazardous Products Act (R.S.C., 1985, c. H-3) and as such is exempt from the requirement for creation of a SDS.

US Federal OSHA defines an "article" as follows at 29 CFR 1910.1200 (c):

Article means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

The Canadian Federal Hazardous Products Act defines a "manufactured article" as follows at Part II Controlled Products, Interpretation, Definitions, paragraph 11(1):

"manufactured article" means any article that is formed to a specific shape or design during manufacture, the intended use of which when in that form is dependent in whole or in part on its shape or design, and that, under normal conditions of use, will not release or otherwise cause a person to be exposed to a controlled product;

EU REACH similarly defines an article as follows per Article 3(3) of the REACH Regulation

Article means an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition;

The Goods are not a Substance or Mixture that:

- Meets the criteria for classification as hazardous in accordance with Regulation (EC) 1272/2008
- Meets the criteria for classification as dangerous in accordance with Directive 1999/45/EC
- Is Persistent, Bioaccumulative, or Toxic (PBT), Very Persistent or Very Bioaccumulative (vPvB),
- Is subject to authorization
- Contains >0.1% of a substance that poses a human health or environmental hazard
- Contains >0.1% of a substance that is PBT or vPvB or subject to authorization
- Contains a substance for which there are Community workplace exposure limits

The Goods listed above do not have an intended release in the application or use of the product. Any product which meets the definition of an "article" (OSHA and EU) or a "manufactured article" (CFHPA) is exempt from the requirement to provide a SDS.

If you should need additional information, please contact your Sales or Customer Service Representative.

Berry Global, Inc.

BPA - Bisphenol A and bisphenol derivatives

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Bisphenol-A (BPA) or bisphenol derivatives. Berry does not analyze for BPA or bisphenol derivatives as they are not expected to be present.

California Proposition 65

To the best knowledge of the suppliers of the materials used in the manufacturing process, each article comprising any shipment or other delivery of Goods made to or on order of Buyer, on the date of such shipment or delivery, does not contain substances (Listed Substances), that are: (i) intentionally added during the manufacturing process or (ii) known or expected to be present at an exposure level requiring a warning under the current provisions of California Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Canada Food and Drug - Division 23

The Materials selected to formulate the Goods are compliant with Canada Food and Drug, Part B – Division 23 requirements and are safe to use in articles intended for food contact.

CONEG "Toxics in Packaging" Model Legislation

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, in compliance with the relevant heavy metals requirements, and all current applicable amendments, for the Toxics in Packaging Clearinghouse, TPCH, (a.k.a. CONEG), California Toxics in Packaging Prevention (TIPP) Act, and European Union Council Directive 94/62/EC, Article 11.

Specifically, the sum of incidental concentration levels of lead, cadmium, mercury and hexavalent chromium present in the Goods shall not exceed 100 parts per million by weight. In cases where the regulated heavy metals are present at levels below the amount stated above, the regulated heavy metals were not intentionally added during the manufacturing process. Phthalates and PFAS are not intentionally added.

Halal

Berry Global does not certify the goods as Halal compliant.

Kosher

Berry Global does not certify the goods as Kosher compliant.

PFAS - Per- or Polyfluoroalkyl Substances

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Per- or polyfluoroalkyl substances (PFAS). Berry does not analyze for the substances as they are not expected to be present.

Phthalates

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Phthalates including di-(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), benzyl butyl phthalate (BBP), di-isononyl phthalate (DINP) except for unintentional ubiquitous sources. Berry does not analyze for the substances as they are not expected to be present.

Undesirable Substance(s)

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added chlorine or chlorinated compounds. Berry does not analyze for the substances as they are not expected to be present.

US FDA Food Contact Compliance Status (21 CFR 175, 176, 177, 178)

The Materials selected to formulate the Goods are listed in one or more of the following sections of Title 21, Code of

Berry Global, Inc.

101 Oakley Street Evansville, IN 47710 Tele: 812-424-2904 Fax: 812-424-0128

Federal Regulations: 177.1520; 178.3297; 178.2010.

The finished articles may be used in contact with all types of food including articles used for packing or holding food for Conditions of Use A-H as shown in Tables 1 and 2 of 21 C.F.R. § 176.170(c).

The sections above list raw materials approved by the U.S. Food and Drug Administration (FDA) for use in food contact applications, such as packaging, and are subject to good manufacturing practices and any limitations contained in applicable United States regulations. This statement does not refer to the Good's physical utility. It is the responsibility of the Buyer to determine if the Goods are suitable for their intended use.

Article Exemption Letter

In response to your request for a Safety Data Sheet (SDS) for Berry Global Inc Goods listed above we offer the following information:

The material in question is an "article" as defined by the United States Department of Labor, Occupational Safety and Health Administration (OSHA) and per Article 3(3) of the REACH Regulation and is a "manufactured article" as defined by the Canadian Hazardous Products Act (R.S.C., 1985, c. H-3) and as such is exempt from the requirement for creation of a SDS.

US Federal OSHA defines an "article" as follows at 29 CFR 1910.1200 (c):

Article means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

The Canadian Federal Hazardous Products Act defines a "manufactured article" as follows at Part II Controlled Products,

Berry Global, Inc.

101 Oakley Street Evansville, IN 47710 Tele: 812-424-2904 Fax: 812-424-0128

Interpretation, Definitions, paragraph 11(1):

“manufactured article” means any article that is formed to a specific shape or design during manufacture, the intended use of which when in that form is dependent in whole or in part on its shape or design, and that, under normal conditions of use, will not release or otherwise cause a person to be exposed to a controlled product;

EU REACH similarly defines an article as follows per Article 3(3) of the REACH Regulation

Article means an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition;

The Goods are not a Substance or Mixture that:

- Meets the criteria for classification as hazardous in accordance with Regulation (EC) 1272/2008
- Meets the criteria for classification as dangerous in accordance with Directive 1999/45/EC
- Is Persistent, Bioaccumulative, or Toxic (PBT), Very Persistent or Very Bioaccumulative (vPvB),
- Is subject to authorization
- Contains >0.1% of a substance that poses a human health or environmental hazard
- Contains >0.1% of a substance that is PBT or vPvB or subject to authorization
- Contains a substance for which there are Community workplace exposure limits

The Goods listed above do not have an intended release in the application or use of the product. Any product which meets the definition of an “article” (OSHA and EU) or a “manufactured article” (CFHPA) is exempt from the requirement to provide a SDS.

If you should need additional information, please contact your Sales or Customer Service Representative.

BPA - Bisphenol A and bisphenol derivatives

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Bisphenol-A (BPA) or bisphenol derivatives. Berry does not analyze for BPA or bisphenol derivatives as they are not expected to be present.

California Proposition 65

To the best knowledge of the suppliers of the materials used in the manufacturing process, each article comprising any shipment or other delivery of Goods made to or on order of Buyer, on the date of such shipment or delivery, does not contain substances (Listed Substances), that are: (i) intentionally added during the manufacturing process or (ii) known or expected to be present at an exposure level requiring a warning under the current provisions of California Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Canada Food and Drug - Division 23

The Materials selected to formulate the Goods are compliant with Canada Food and Drug, Part B – Division 23 requirements and are safe to use in articles intended for food contact.

CONEG "Toxics in Packaging" Model Legislation

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, in compliance with the relevant heavy metals requirements, and all current applicable amendments, for the Toxics in Packaging Clearinghouse, TPCH, (a.k.a. CONEG), California Toxics in Packaging Prevention (TIPP) Act, and European Union Council Directive 94/62/EC, Article 11.

Specifically, the sum of incidental concentration levels of lead, cadmium, mercury and hexavalent chromium present in the Goods shall not exceed 100 parts per million by weight. In cases where the regulated heavy metals are present at levels below the amount stated above, the regulated heavy metals were not intentionally added during the manufacturing process. Phthalates and PFAS are not intentionally added.

Berry Global, Inc.

101 Oakley Street Evansville, IN 47710 Tele: 812-424-2904 Fax: 812-424-0128

Halal

Berry Global does not certify the goods as Halal compliant.

Kosher

Berry Global does not certify the goods as Kosher compliant.

PFAS - Per- or Polyfluoroalkyl Substances

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Per- or polyfluoroalkyl substances (PFAS). Berry does not analyze for the substances as they are not expected to be present.

Phthalates

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Phthalates including di-(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), benzyl butyl phthalate (BBP), di-isononyl phthalate (DINP) except for unintentional ubiquitous sources. Berry does not analyze for the substances as they are not expected to be present.

Undesirable Substance(s)

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added chlorine or chlorinated compounds. Berry does not analyze for the substances as they are not expected to be present.

US FDA Food Contact Compliance Status (21 CFR 175, 176, 177, 178)

The Materials selected to formulate the Goods are listed in one or more of the following sections of Title 21, Code of Federal Regulations: 177.1520; 178.3297; 178.2010; 184.1409.

The finished articles may be used in contact with all types of food as defined in Table 1, 21 C.F.R. § 176.170(c) at Conditions of Use B–H as defined in Table 2, 21 C.F.R. § 176.170(c).

Materials may be used in microwave (non-suseptor) reheating or cooking if FDA status allows applications under these conditions provided that the radiation processing is done in compliance with 21 C.F.R. § 179. Note that microwave power ratings differ and heating time is controlled exclusively by the user. Variation is expected due to these factors.

The sections above list raw materials approved by the U.S. Food and Drug Administration (FDA) for use in food contact applications, such as packaging, and are subject to good manufacturing practices and any limitations contained in applicable United States regulations. This statement does not refer to the Good's physical utility. It is the responsibility of the Buyer to determine if the Goods are suitable for their intended use.

BPA - Bisphenol A and bisphenol derivatives

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Bisphenol-A (BPA) or bisphenol derivatives. Berry does not analyze for BPA or bisphenol derivatives as they are not expected to be present.

California Proposition 65

To the best knowledge of the suppliers of the materials used in the manufacturing process, each article comprising any shipment or other delivery of Goods made to or on order of Buyer, on the date of such shipment or delivery, does not contain substances (Listed Substances), that are: (i) intentionally added during the manufacturing process or (ii) known or expected to be present at an exposure level requiring a warning under the current provisions of California Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Canada Food and Drug - Division 23

The Materials selected to formulate the Goods are compliant with Canada Food and Drug, Part B – Division 23 requirements and are safe to use in articles intended for food contact.

CONEG "Toxics in Packaging" Model Legislation

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, in compliance with the relevant heavy metals requirements, and all current applicable amendments, for the Toxics in Packaging Clearinghouse, TPCH, (a.k.a. CONEG), California Toxics in Packaging Prevention (TIPP) Act, and European Union Council Directive 94/62/EC, Article 11.

Specifically, the sum of incidental concentration levels of lead, cadmium, mercury and hexavalent chromium present in the Goods shall not exceed 100 parts per million by weight. In cases where the regulated heavy metals are present at levels below the amount stated above, the regulated heavy metals were not intentionally added during the manufacturing process. Phthalates and PFAS are not intentionally added.

Halal

Berry Global does not certify the goods as Halal compliant.

Kosher

Berry Global does not certify the goods as Kosher compliant.

PFAS - Per- or Polyfluoroalkyl Substances

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Per- or polyfluoroalkyl substances (PFAS). Berry does not analyze for the substances as they are not expected to be present.

Phthalates

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Phthalates including di-(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), benzyl butyl phthalate (BBP), di-isononyl phthalate (DINP) except for unintentional ubiquitous sources. Berry does not analyze for the substances as they are not expected to be present.

Undesirable Substance(s)

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added chlorine or chlorinated compounds. Berry does not analyze for the substances as they are not expected to be present.

Berry Global, Inc.

101 Oakley Street Evansville, IN 47710 Tele: 812-424-2904 Fax: 812-424-0128

US FDA Food Contact Compliance Status (21 CFR 175, 176, 177, 178)

The Materials selected to formulate the Goods are listed in one or more of the following sections of Title 2 Code of Federal Regulations:

- 21 CFR 177.1520 "Olefins Polymers"
- 21 CFR 178.3297, "Colorants for Polymers"

The finished articles may be used in contact with all types of foods, listed under conditions of use C through H, of 21 CFR 176.170(c), Table 2, and can be used in contact with all food types as listed in 21 CFR 176.170(c), Table 1.

The sections above list raw materials officially sanctioned by the U.S. Food and Drug Administration (FDA) for use in food contact applications, such as packaging, and are subject to good manufacturing practices and any limitations, which are contained in applicable Code of Federal Regulations provisions. It is the responsibility of the Buyer to determine if the supplied finished packaging and/or packaging components are suitable for their intended use.

<u>Berry Item No.</u>	<u>Item Description "Goods"</u>
FLKY-1744783	LM1GDCTS, WHITE, 0192 LM1GDCTS, WHITE, 0192

Allergens

Based on representations of the suppliers of the resins and additives from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain food allergens including: fish, shellfish, milk, eggs, soy, wheat (gluten), peanuts, tree nuts, and sesame.

Article Exemption Letter

In response to your request for a Safety Data Sheet (SDS) for Berry Global Inc Goods listed above we offer the following information:

The material in question is an "article" as defined by the United States Department of Labor, Occupational Safety and Health Administration (OSHA) and per Article 3(3) of the REACH Regulation and is a "manufactured article" as defined by the Canadian Hazardous Products Act (R.S.C., 1985, c. H-3) and as such is exempt from the requirement for creation of a SDS.

US Federal OSHA defines an "article" as follows at 29 CFR 1910.1200 (c):

Article means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

The Canadian Federal Hazardous Products Act defines a "manufactured article" as follows at Part II Controlled Products, Interpretation, Definitions, paragraph 11(1):

"manufactured article" means any article that is formed to a specific shape or design during manufacture, the intended use of which when in that form is dependent in whole or in part on its shape or design, and that, under normal conditions of use, will not release or otherwise cause a person to be exposed to a controlled product;

EU REACH similarly defines an article as follows per Article 3(3) of the REACH Regulation

Article means an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition;

The Goods are not a Substance or Mixture that:

Berry Global, Inc.

101 Oakley Street Evansville, IN 47710 Tele: 812-424-2904 Fax: 812-424-0128

- Meets the criteria for classification as hazardous in accordance with Regulation (EC) 1272/2008
- Meets the criteria for classification as dangerous in accordance with Directive 1999/45/EC
- Is Persistent, Bioaccumulative, or Toxic (PBT), Very Persistent or Very Bioaccumulative (vPvB),
- Is subject to authorization
- Contains >0.1% of a substance that poses a human health or environmental hazard
- Contains >0.1% of a substance that is PBT or vPvB or subject to authorization
- Contains a substance for which there are Community workplace exposure limits

The Goods listed above do not have an intended release in the application or use of the product. Any product which meets the definition of an "article" (OSHA and EU) or a "manufactured article" (CFHPA) is exempt from the requirement to provide a SDS.

If you should need additional information, please contact your Sales or Customer Service Representative.

BPA - Bisphenol A and bisphenol derivatives

Berry does not analyze for the substances as they are not expected to be present.

Phthalates

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Phthalates including di-(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), benzyl butyl phthalate (BBP), di-isononyl phthalate (DINP) except for unintentional ubiquitous sources. Berry does not analyze for the substances as they are not expected to be present.

Undesirable Substance(s)

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added chlorine or chlorinated compounds. Berry does not analyze for the substances as they are not expected to be present.

US FDA Food Contact Compliance Status (21 CFR 175, 176, 177, 178)

The Materials selected to formulate the Goods are listed in one or more of the following sections of Title 21, Code of Federal Regulations: 177.1520; 178.3297; 178.2010; 184.1409; 175.300.

The finished articles may be used in contact with all types of food as defined in Table 1, 21 C.F.R. § 176.170(c) at Conditions of Use A–H as defined in Table 2, 21 C.F.R. § 176.170(c).

The sections above list raw materials approved by the U.S. Food and Drug Administration (FDA) for use in food contact applications, such as packaging, and are subject to good manufacturing practices and any limitations contained in applicable United States regulations. This statement does not refer to the Good's physical utility. It is the responsibility of the Buyer to determine if the Goods are suitable for their intended use.

Allergens

Based on representations of the suppliers of the resins and additives from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain food allergens including: fish, shellfish, milk, eggs, soy, wheat (gluten), peanuts, tree nuts, and sesame.

Article Exemption Letter

In response to your request for a Safety Data Sheet (SDS) for Berry Global Inc Goods listed above we offer the following information:

The material in question is an "article" as defined by the United States Department of Labor, Occupational Safety and

Berry Global, Inc.

101 Oakley Street Evansville, IN 47710 Tele: 812-424-2904 Fax: 812-424-0128

Health Administration (OSHA) and per Article 3(3) of the REACH Regulation and is a “manufactured article” as defined by the Canadian Hazardous Products Act (R.S.C., 1985, c. H-3) and as such is exempt from the requirement for creation of a SDS.

US Federal OSHA defines an “article” as follows at 29 CFR 1910.1200 (c):

Article means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

The Canadian Federal Hazardous Products Act defines a “manufactured article” as follows at Part II Controlled Products, Interpretation, Definitions, paragraph 11(1):

“manufactured article” means any article that is formed to a specific shape or design during manufacture, the intended use of which when in that form is dependent in whole or in part on its shape or design, and that, under normal conditions of use, will not release or otherwise cause a person to be exposed to a controlled product;

EU REACH similarly defines an article as follows per Article 3(3) of the REACH Regulation

Article means an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition;

The Goods are not a Substance or Mixture that:

- Meets the criteria for classification as hazardous in accordance with Regulation (EC) 1272/2008
- Meets the criteria for classification as dangerous in accordance with Directive 1999/45/EC
- Is Persistent, Bioaccumulative, or Toxic (PBT), Very Persistent or Very Bioaccumulative (vPvB),
- Is subject to authorization
- Contains >0.1% of a substance that poses a human health or environmental hazard
- Contains >0.1% of a substance that is PBT or vPvB or subject to authorization
- Contains a substance for which there are Community workplace exposure limits

The Goods listed above do not have an intended release in the application or use of the product. Any product which meets the definition of an “article” (OSHA and EU) or a “manufactured article” (CFHPA) is exempt from the requirement to provide a SDS.

If you should need additional information, please contact your Sales or Customer Service Representative.

BPA - Bisphenol A and bisphenol derivatives

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Bisphenol-A (BPA) or bisphenol derivatives. Berry does not analyze for BPA or bisphenol derivatives as they are not expected to be present.

California Proposition 65

To the best knowledge of the suppliers of the materials used in the manufacturing process, each article comprising any shipment or other delivery of Goods made to or on order of Buyer, on the date of such shipment or delivery, does not contain substances (Listed Substances), that are: (i) intentionally added during the manufacturing process or (ii) known or expected to be present at an exposure level requiring a warning under the current provisions of California Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Canada Food and Drug - Division 23

The Materials selected to formulate the Goods are compliant with Canada Food and Drug, Part B – Division 23 requirements and are safe to use in articles intended for food contact.

Berry Global, Inc.

101 Oakley Street Evansville, IN 47710 Tele: 812-424-2904 Fax: 812-424-0128

CONEG "Toxics in Packaging" Model Legislation

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, in compliance with the relevant heavy metals requirements, and all current applicable amendments, for the Toxics in Packaging Clearinghouse, TPCH, (a.k.a. CONEG), California Toxics in Packaging Prevention (TIPP) Act, and European Union Council Directive 94/62/EC, Article 11.

Specifically, the sum of incidental concentration levels of lead, cadmium, mercury and hexavalent chromium present in the Goods shall not exceed 100 parts per million by weight. In cases where the regulated heavy metals are present at levels below the amount stated above, the regulated heavy metals were not intentionally added during the manufacturing process. Phthalates and PFAS are not intentionally added.

Halal

Berry Global does not certify the goods as Halal compliant.

Kosher

Berry Global does not certify the goods as Kosher compliant.

PFAS - Per- or Polyfluoroalkyl Substances

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Per- or polyfluoroalkyl substances (PFAS). Berry does not analyze for the substances as they are not expected to be present.

Phthalates

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Phthalates including di-(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), benzyl butyl phthalate (BBP), di-isononyl phthalate (DINP) except for unintentional ubiquitous sources. Berry does not analyze for the substances as they are not expected to be present.

Undesirable Substance(s)

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added chlorine or chlorinated compounds. Berry does not analyze for the substances as they are not expected to be present.

US FDA Food Contact Compliance Status (21 CFR 175, 176, 177, 178)

The Materials selected to formulate the Goods are listed in one or more of the following sections of Title 21, Code of Federal Regulations: 177.1520; 178.2010; 178.3297. H-3) and as such is exempt from the requirement for creation of a SDS.

US Federal OSHA defines an "article" as follows at 29 CFR 1910.1200 (c):

Article means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

The Canadian Federal Hazardous Products Act defines a "manufactured article" as follows at Part II Controlled Products, Interpretation, Definitions, paragraph 11(1):

"manufactured article" means any article that is formed to a specific shape or design during manufacture, the intended use of which when in that form is dependent in whole or in part on its shape or design, and that, under normal conditions of use, will not release or otherwise cause a person to be exposed to a controlled product;

EU REACH similarly defines an article as follows per Article 3(3) of the REACH Regulation

Article means an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition;

The Goods are not a Substance or Mixture that:

- Meets the criteria for classification as hazardous in accordance with Regulation (EC) 1272/2008
- Meets the criteria for classification as dangerous in accordance with Directive 1999/45/EC
- Is Persistent, Bioaccumulative, or Toxic (PBT), Very Persistent or Very Bioaccumulative (vPvB),
- Is subject to authorization
- Contains >0.1% of a substance that poses a human health or environmental hazard
- Contains >0.1% of a substance that is PBT or vPvB or subject to authorization
- Contains a substance for which there are Community workplace exposure limits

The Goods listed above do not have an intended release in the application or use of the product. Any product which meets the definition of an "article" (OSHA and EU) or a "manufactured article" (CFHPA) is exempt from the requirement to provide a SDS.

If you should need additional information, please contact your Sales or Customer Service Representative.

BPA - Bisphenol A and bisphenol derivatives

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Bisphenol-A (BPA) or bisphenol derivatives. Berry does not analyze for BPA or bisphenol derivatives as they are not expected to be present.

California Proposition 65

To the best knowledge of the suppliers of the materials used in the manufacturing process, each article comprising any shipment or other delivery of Goods made to or on order of Buyer, on the date of such shipment or delivery, does not contain substances (Listed Substances), that are: (i) intentionally added during the manufacturing process or (ii) known or expected to be present at an exposure level requiring a warning under the current provisions of California Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Canada Food and Drug - Division 23

The Materials selected to formulate the Goods are compliant with Canada Food and Drug, Part B – Division 23 requirements and are safe to use in articles intended for food contact.

CONEG "Toxics in Packaging" Model Legislation

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, in compliance with the relevant heavy metals requirements, and all current applicable amendments, for the Toxics in Packaging Clearinghouse, TPCH, (a.k.a. CONEG), California Toxics in Packaging Prevention (TIPP) Act, and European Union Council Directive 94/62/EC, Article 11.

Specifically, the sum of incidental concentration levels of lead, cadmium, mercury and hexavalent chromium present in the Goods shall not exceed 100 parts per million by weight. In cases where the regulated heavy metals are present at levels below the amount stated above, the regulated heavy metals were not intentionally added during the manufacturing process. Phthalates and PFAS are not intentionally added.

Halal

Berry Global does not certify the goods as Halal compliant.

Kosher

Berry Global does not certify the goods as Kosher compliant.

PFAS - Per- or Polyfluoroalkyl Substances

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Per- or polyfluoroalkyl substances (PFAS). Berry does not analyze for the substances as they are not expected to be present.

Phthalates

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Phthalates including di-(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), benzyl butyl phthalate (BBP), di-isononyl phthalate (DINP) except for unintentional ubiquitous sources. Berry does not analyze for the substances as they are not expected to be present.

Undesirable Substance(s)

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added chlorine or chlorinated compounds. Berry does not analyze for the substances as they are not expected to be present.

Berry Global, Inc.

US FDA Food Contact Compliance Status (21 CFR 175, 176, 177, 178)

The Materials selected to formulate the Goods are listed in one or more of the following sections of Title 21, Code of Federal Regulations: 177.1520; 178.3297; 178.2010.

The finished articles may be used in contact with all types of food as defined in Table 1, 21 C.F.R. § 176.170(c) at Conditions of Use A–H as defined in Table 2, 21 C.F.R. § 176.170(c).

The sections above list raw materials approved by the U.S. Food and Drug Administration (FDA) for use in food contact applications, such as packaging, and are subject to good manufacturing practices and any limitations contained in applicable United States regulations. This statement does not refer to the Good's physical utility. It is the responsibility of the Buyer to determine if the Goods are suitable for their intended use.

<u>Berry Item No.</u>	<u>Item Description "Goods"</u>

Article Exemption Letter

In response to your request for a Safety Data Sheet (SDS) for Berry Global Inc Goods listed above we offer the following information:

The material in question is an "article" as defined by the United States Department of Labor, Occupational Safety and Health Administration (OSHA) and per Article 3(3) of the REACH Regulation and is a "manufactured article" as defined by the Canadian Hazardous Products Act (R.S.C., 1985, c. H-3) and as such is exempt from the requirement for creation of a SDS.

US Federal OSHA defines an "article" as follows at 29 CFR 1910.1200 (c):

Article means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

The Canadian Federal Hazardous Products Act defines a "manufactured article" as follows at Part II Controlled Products, Interpretation, Definitions, paragraph 11(1):

"manufactured article" means any article that is formed to a specific shape or design during manufacture, the intended use of which when in that form is dependent in whole or in part on its shape or design, and that, under normal conditions

Berry Global, Inc.

101 Oakley Street Evansville, IN 47710 Tele: 812-424-2904 Fax: 812-424-0128

of use, will not release or otherwise cause a person to be exposed to a controlled product;

EU REACH similarly defines an article as follows per Article 3(3) of the REACH Regulation

Article means an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition;

The Goods are not a Substance or Mixture that:

- Meets the criteria for classification as hazardous in accordance with Regulation (EC) 1272/2008
- Meets the criteria for classification as dangerous in accordance with Directive 1999/45/EC
- Is Persistent, Bioaccumulative, or Toxic (PBT), Very Persistent or Very Bioaccumulative (vPvB),
- Is subject to authorization
- Contains >0.1% of a substance that poses a human health or environmental hazard
- Contains >0.1% of a substance that is PBT or vPvB or subject to authorization
- Contains a substance for which there are Community workplace exposure limits

The Goods listed above do not have an intended release in the application or use of the product. Any product which meets the definition of an "article" (OSHA and EU) or a "manufactured article" (CFHPA) is exempt from the requirement to provide a SDS.

If you should need additional information, please contact your Sales or Customer Service Representative.

BPA - Bisphenol A and bisphenol derivatives

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Bisphenol-A (BPA) or bisphenol derivatives. Berry does not analyze for BPA or bisphenol derivatives as they are not expected to be present.

California Proposition 65

To the best knowledge of the suppliers of the materials used in the manufacturing process, each article comprising any shipment or other delivery of Goods made to or on order of Buyer, on the date of such shipment or delivery, does not contain substances (Listed Substances), that are: (i) intentionally added during the manufacturing process or (ii) known or expected to be present at an exposure level requiring a warning under the current provisions of California Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Canada Food and Drug - Division 23

The Materials selected to formulate the Goods are compliant with Canada Food and Drug, Part B – Division 23 requirements and are safe to use in articles intended for food contact.

CONEG "Toxics in Packaging" Model Legislation

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, in compliance with the relevant heavy metals requirements, and all current applicable amendments, for the Toxics in Packaging Clearinghouse, TPCH, (a.k.a. CONEG), California Toxics in Packaging Prevention (TIPP) Act, and European Union Council Directive 94/62/EC, Article 11.

Specifically, the sum of incidental concentration levels of lead, cadmium, mercury and hexavalent chromium present in the Goods shall not exceed 100 parts per million by weight. In cases where the regulated heavy metals are present at levels below the amount stated above, the regulated heavy metals were not intentionally added during the manufacturing process. Phthalates and PFAS are not intentionally added.

Halal

Berry Global does not certify the goods as Halal compliant.

Berry Global, Inc.

101 Oakley Street Evansville, IN 47710 Tele: 812-424-2904 Fax: 812-424-0128

Kosher

Berry Global does not certify the goods as Kosher compliant.

PFAS - Per- or Polyfluoroalkyl Substances

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Per- or polyfluoroalkyl substances (PFAS). Berry does not analyze for the substances as they are not expected to be present.

Phthalates

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Phthalates including di-(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), benzyl butyl phthalate (BBP), di-isononyl phthalate (DINP) except for unintentional ubiquitous sources. Berry does not analyze for the substances as they are not expected to be present.

Undesirable Substance(s)

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added chlorine or chlorinated compounds. Berry does not analyze for the substances as they are not expected to be present.

US FDA Food Contact Compliance Status (21 CFR 175, 176, 177, 178)

The Materials selected to formulate the Goods are listed in one or more of the following sections of Title 21, Code of Federal Regulations: 177.1520; 178.3297; 178.2010.

The finished articles may be used in contact with all types of food as defined in Table 1, 21 C.F.R. § 176.170(c) at Conditions of Use C–H as defined in Table 2, 21 C.F.R. § 176.170(c).

Materials may be used in microwave (non-suseptor) reheating or cooking if FDA status allows applications under these conditions provided that the radiation processing is done in compliance with 21 C.F.R. § 179. Note that microwave power ratings differ and heating time is controlled exclusively by the user. Variation is expected due to these factors.

The sections above list raw materials approved by the U.S. Food and Drug Administration (FDA) for use in food contact applications, such as packaging, and are subject to good manufacturing practices and any limitations contained in applicable United States regulations. This statement does not refer to the Good's physical utility. It is the responsibility of the Buyer to determine if the Goods are suitable for their intended use.

Berry Item No. Item Description "Goods"

MUIA-1746420 LP2SQFIGTSCP,WHITE,0960 FLOW IN GASKET 0960

Allergens

Based on representations of the suppliers of the resins and additives from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain food allergens including: fish, shellfish, milk, eggs, soy, wheat (gluten), peanuts, tree nuts, and sesame.

Article Exemption Letter

In response to your request for a Safety Data Sheet (SDS) for Berry Global Inc Goods listed above we offer the following information:

The material in question is an "article" as defined by the United States Department of Labor, Occupational Safety and Health Administration (OSHA) and per Article 3(3) of the REACH Regulation and is a "manufactured article" as defined by the Canadian Hazardous Products Act (R.S.C., 1985, c. H-3) and as such is exempt from the requirement for creation of a SDS.

US Federal OSHA defines an "article" as follows at 29 CFR 1910.1200 (c):

Berry Global, Inc.

101 Oakley Street Evansville, IN 47710 Tele: 812-424-2904 Fax: 812-424-0128

Article means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

The Canadian Federal Hazardous Products Act defines a "manufactured article" as follows at Part II Controlled Products, Interpretation, Definitions, paragraph 11(1):

"manufactured article" means any article that is formed to a specific shape or design during manufacture, the intended use of which when in that form is dependent in whole or in part on its shape or design, and that, under normal conditions of use, will not release or otherwise cause a person to be exposed to a controlled product;

EU REACH similarly defines an article as follows per Article 3(3) of the REACH Regulation

Article means an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition;

The Goods are not a Substance or Mixture that:

- Meets the criteria for classification as hazardous in accordance with Regulation (EC) 1272/2008
- Meets the criteria for classification as dangerous in accordance with Directive 1999/45/EC
- Is Persistent, Bioaccumulative, or Toxic (PBT), Very Persistent or Very Bioaccumulative (vPvB),
- Is subject to authorization
- Contains >0.1% of a substance that poses a human health or environmental hazard
- Contains >0.1% of a substance that is PBT or vPvB or subject to authorization
- Contains a substance for which there are Community workplace exposure limits

The Goods listed above do not have an intended release in the application or use of the product. Any product which meets the definition of an "article" (OSHA and EU) or a "manufactured article" (CFHPA) is exempt from the requirement to provide a SDS.

If you should need additional information, please contact your Sales or Customer Service Representative.

BPA - Bisphenol A and bisphenol derivatives

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, not manufactured to contain or have intentionally added Bisphenol-A (BPA) or bisphenol derivatives. Berry does not analyze for BPA or bisphenol derivatives as they are not expected to be present.

California Proposition 65

To the best knowledge of the suppliers of the materials used in the manufacturing process, each article comprising any shipment or other delivery of Goods made to or on order of Buyer, on the date of such shipment or delivery, does not contain substances (Listed Substances), that are: (i) intentionally added during the manufacturing process or (ii) known or expected to be present at an exposure level requiring a warning under the current provisions of California Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Canada Food and Drug - Division 23

The Materials selected to formulate the Goods are compliant with Canada Food and Drug, Part B – Division 23 requirements and are safe to use in articles intended for food contact.

CONEG "Toxics in Packaging" Model Legislation

Based on representations of the Suppliers of the Materials from which the Goods are produced, the Goods are, on the date of shipment or delivery, in compliance with the relevant heavy metals requirements, and all current applicable amendments, for the Toxics in Packaging Clearinghouse, TPCH, (a.k.a. CONFIDENTIAL DISCLAIMER

The regulatory declarations provided herein apply exclusively to the named customer (addressee). They do not imply, suggest, authorize, sanction, or warrant the use or legality of any marketing claims the Buyer or its customer chooses to make with respect to the listed Good(s), including any product or item with which such Goods are incorporated, used, affixed, applied, marketed, or sold. Seller prohibits further distribution of its regulatory declarations without the express written consent of Seller's Director of Regulatory Compliance.

Seller does not conduct any independent tests of Materials and disclaims any responsibility to do so. Seller does not manufacture the Materials; the Materials are purchased from outside, unaffiliated Suppliers that have provided Material Safety Data Sheets or other information on which this Statement is wholly based. **ASIDE FROM THE STATEMENTS ABOVE, NO WARRANTY, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR ANY PURPOSE, OR ANY OTHER WARRANTY OR GUARANTEE IS MADE OR IMPLIED REGARDING THE MATERIALS OR THE GOODS OR THE REPRESENTATIONS OF THE SUPPLIERS, THE RESULTS TO BE OBTAINED FROM THE USE OF THE GOODS, THE SAFETY OF THE GOODS, OR THE HAZARDS CONNECTED WITH THE USE OF THE GOODS. ALL SUCH WARRANTIES ARE EXCLUDED.**

This Statement is not intended to modify any existing supply agreement or other agreement between the parties or relieve Buyer from its obligations to: (i) comply with applicable laws; (ii) provide accurate data for decorating and labeling of Goods; and (iii) use the Goods in a manner consistent with those data. Seller disclaims any responsibility for and shall not be liable for: (i) any modification of the Goods after shipment; (ii) Buyer's use or storage that may result in degradation of the Goods or migration of other chemicals into the Goods; (iii) any non-conforming Materials or any modification of Materials by a Supplier; (iv) any addition to or amendment of any applicable European, U.S., state or local laws or regulations relating to the Materials, or the Goods; or (v) actions required by Suppliers or Buyer to comply with applicable European, U.S., state, and local laws relating to the Materials or the Goods. Buyer is responsible for determining and applying the law and regulations that may be applicable to the intended use of the Goods and determining if the Goods are suitable for their intended use. The chemical compositions for the Materials and the Goods may be proprietary formulations and, if so, are confidential.

This Statement: (i) is effective only as of the above date; (ii) is not assignable; (iii) revokes any prior statements or representations by Seller with respect to the subject matter; (iv) is subject to Suppliers' statements and disclaimers (copies of which will be provided upon written request); and (v) may be withdrawn by Seller at any time.

Should you need additional information concerning the composition of the Goods, you may contact your sales or customer service representative.
