Explore the Large, Diverse Selection of Eagle Safety Cabinets

Eagle offers cabinets in a wide range of capacity sizes, color options and applications, to help facilitate safe chemical storage no matter what the need or industry. Per regulatory codes, safety cabinets must be correctly labeled to represent hazards found in an area. While codes do not mandate the specific color, industry standard customarily observe certain colors for defined liquids or chemicals:

Color Name	Industry Standards	Symbol
Yellow	Flammable chemicals and liquids	
Red	Paints, inks and other combustible liquids	
Blue	Corrosive and hazardous liquids and solids	
Green	Pesticides and insecticides	
Silver / Neutral	Laboratory cabinets	
White / Beige / Gray	Waste or outdoor lockers
