Performix® Brand Rubber Dip Spray has been classified under CFR 40 Part 59 Subpart B, Automotive Refinish Coatings (840 gram / liter). As a result, Rubber Dip Spray will be manufactured and marketed specifically as a Specialty Coating under this regulation. This applies to all 1 gallon, 5 gallon, and 50 gallon drums of Rubber Dip Spray.

Following are the compliance restrictions that we are making you aware of as this is a sales control regulation:

- Rubber Dip Spray is to be sold only for Automotive Refinishing Specialty Coating applications
- Rubber Dip Spray is not to be sold into or used in the State of California
- Rubber Dip Spray cannot be sold into or used in the States of Delaware and Maryland. However, sales and use are permitted in these States if the individual applying the product is not receiving compensation or if the facility applying the coating uses approved emission control systems and practices that comply with MVMEER guidelines.
- Rubber Dip Spray is not to be sold into or used in Canada
- This regulation applies to North America only
