

# List of Actual Uses for Plasti Dip & Plasti Dip Spray

It's not just for tool handles...

## Custom Design

Gumball facemasks  
Meg Batman masks sold by Hasbro  
Star War clocks  
Protect against Mego Fungus Disease on figures  
Repair pinholes in STARLAB domes  
Track treads on robots  
Keep figures from cracking when bending & shaping  
Coating a mold for robes on figures  
Adding accessories to masks  
Create knees for robots  
Cable stems for mountain climbing  
Hat brims to prevent tearing  
Metal tripods to protect glass lamp shades  
Sealing the Trooper costume to eliminate noise  
Distorting sound on piano attenuator switches  
Battery trays in robot frames  
Coat wire on wooden art sculpture  
Arm on HumbleMaxx battery operated truck model  
Sealing foam masks  
Bar end weights & levers of bicycles  
Attached forearms of action figure  
Coat bouncy balls for billiard manipulation  
Making monster masks  
Knob of hockey stick shafts  
Create rubber eyecups on eyeglasses  
Silver foil speaker cables  
Restore eyecup on camera  
Seals bottles that contain a message & released in the ocean  
Coat the bottom of slippers  
Ballast plugs for model airplanes  
Protect the nose of remote controlled aircraft/airplanes  
Brake deducts on car replicas  
Guitar finger picks  
Tweezers to eliminate damage to gem stones  
Making fake food  
Eliminate graying of human torch heads  
Gripper for handicapped  
Pawpad gloves  
Robot legs  
Underground storage tanks  
Create boots for action figures  
Protect the finish of command figures  
Cover tips and outer booms on remote controlled airplanes  
Making parts for miniature car replicas  
Coat plant weights on aquatic plants  
Repair body of Sediment Sampler

Used in blacksmithing on various metals  
Scenic props  
Sponges  
Re-create the rubber on the Ghostbusters car

## **Automotive**

Repair rips in speaker heads  
Steering wheels of N-series tractors  
Eliminate the shine from mounting brackets  
Metal studs  
Throttle control pedal breaks  
Replaces leather wrappings on clutch & brake levers  
Battery trays & terminals  
Alltronics motors  
Seal holes in diaphragms  
Eliminate rattling on chains of a hitch lock  
Protect artifacts from being damaged  
Threads of clutches  
Mirror repair  
Magnetic reed switches  
Brake & clutch levers  
Temperature gauges  
Waterproofing distributors  
Protecting valve seats & stems  
Plug wire separators  
Heater hose brackets  
Improve traction on tires  
Protect optima mounting bar for positive/negative posts  
Non-slip brake lever  
Acid rust inhibitor for steel battery boxes  
Waterproof servoc on R/C race cars  
Roof rack mounts for cargo carriers  
Waterproofing wire on spark terminals  
Coat the bulbs of running lights  
Refinishing black plastic molding on cars  
Undercoating for plastic fender flares  
Coat rock panels  
Seal the float in fuel tanks  
Restore & stop cracking of plastids rubber boats  
Coat J hooks that are used to hold batteries in place  
Seal cable wires  
Sleeves for LEDS  
Refurbish wire looms  
Eliminate corona leakage of coils  
Defroster bezels  
Repair cracked rubber on manifold parts  
Repair broken and cracked steering wheels  
Coat choke cable to prevent moisture and chemicals from freezing the cable  
Coat the base of side mirror on car  
Coat screen on RV filtering system

## **Marine & Watercraft**

Composite tubing for kayak carry loops

- Cable-end eye loops on kayaks
- Coat fishing sinkers to prevent scratching boats
- Seal handmade canoes
- Coating lead eyes for fly fishing
- Protect the keel of kayaks
- Protect carbon kayak paddle edges
- Mounting brackets for porting kayaks & canoes
- Protect crankbaits from chipping
- Insulate foam for bulkheads on kayaks
- Seal cracked coils on boat motors
- Seal entire electric motor from salt water
- Insulate solder lugs from salt water
- Seal seams on wet suits
- Coat and color code rope ends
- Coat cables on watercraft
- Coat junction box on outboard motor to keep water out

### **Etching, Masking & Plating**

- Hold photos in place
- Mask Sony lens to be painted
- Masking during sandblasting
- Masking gem stones prior sandblasting cracks
- Coat fastener and copper wire to prevent corrosion from plating solution
- Use as masking agent during etching of signs, then removed

### **Animal & Outdoor Environment**

- Cable ties holding snapping turtles to collect data
- Compressible foam for composites
- Spherical balls on heliodon for teaching geometry of sunlight
- Waterproofing underwater acoustics
- Electrical insulator for acrylic aquarium tanks
- Create dark conditions for biological oxygen bottles
- Seal angle iron probe for reef aquarium tanks
- Waterproofing aero cloner in aquariums
- Cover sharp edges on animal cages
- Repair suspended-sediment sampler by Federal Waterways
- Insulate soldered connections on micro reef lighting equipment
- Iguana cages

### **Electrical**

- Underground wiring
- Seals holes in electronic circuit boards
- Waterproof outdoor connections & connectors
- Coat exposed solder joints on circuit boards
- Eliminate vibration on RF connections
- Waterproof robot electronics
- Electrical transforms for raceway power track
- Micro-receiver & electronics on a model submarine
- Electronic thermometer probe
- Eliminate wicking of moisture in coax connections
- Insulate solid copper wire on electrolytic tanks
- Compression terminal block
- Waterproof/insulate soldered connections for outlet boxes

Keep moisture out of exterior coax connectors  
Color code and insulate toggle switches

## **Home & Garden**

Seal pinholes & tears on leather bellows  
PVC homemade antenna  
Coat A/S antenna to eliminate the shiny stainless steel mast  
Waterproof wooden window planters  
Padded stainless steel shower seat for handicapped  
Repair pinholes in shutters  
Repair leaks in a folding fuji bellow  
Repair tears in pleated fold of omega rail bellow  
Seal gutters  
Garden tools  
Plant weights  
Weatherproofing outdoor patio cushions  
Preserving dried flowers  
Color code keys  
Coat metal doorknobs for grip  
Coat artificial food items  
Shatterproof glass  
Coat valve body on wet/dry vac  
Coat lawnballs  
Coat bottom of book holder to prevent slipping and scratching  
Coat garden hose nozzles for grip and bright color  
Coat various substrates for long term underground storage  
Coat terra cotta clay pots, removable  
Coat rain gauges  
Underground pet sensors  
Fountains

## **Manufacturing**

Circuit boards  
Steel bolts  
Jewelry remover for the handicapped  
Tester for mold makers  
Reinforcing plating for HMD  
Building percussion instruments (cymbals & triangles)  
Steel piping  
RP parts  
Protects mego heads for pencil easers  
Coat electrometric materials for toothbrush handles & pen barrels  
Seal threads in drain fittings on agitated tanks  
Mego hands  
Crystal Stix, toys for kids  
Lightweight mask for catches & umpires  
Coat metal fingers on assembly line to prevent braking glass  
Coat medical blower to keep contaminants out  
Improve grip on medical instruments  
Insulate fiberglass blocks  
Coat foam  
Coat malting trays to protect from sulfur, chlorine and water

Forklifts to prevent scratching  
Golf ball baskets  
Valves

### **Workbench**

Dermal cutting tool/wire strippers  
Needle tools  
Tire iron to eliminate scratching megwheels  
Pruning shears  
Tool handles  
Jaws of hemostats  
Hard idle wrenches to loosen locknuts in engines  
Rope ends  
Horticultural tools

### **Hunting & Fishing**

Decoy weight to eliminate scratching  
Transmitter on WB2HOL for fox hunting  
Scope rings of hunting guns  
Eye bolts for bowhunting  
Lawn balls for quivers  
Refinishing old shoe cobblers lathe for gunsmithing  
Repair clam type houses  
Over-coating for fly fishing lures  
Coat fishing jigs  
Add glitter to create fly fishing lures  
Steel duck blinds
